

(a) Year of first version**(b) Output contract****(c) Task****(d) Access needed**

Fig. 6. **Profile of the 408 corpus works** (Tables C1 and F1). (a) Year of first public version (*2026 is partial); (b) the output contract the confidence is attached to (the five contracts are defined in the caption of Table F1); (c) task; (d) the access a method needs: white-box (logits or weights), black-box (text only) or either. “not determinable” marks a value that could not be determined from the paper.
